TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. - Abandonment** of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action; or

Continuation of 4(e) Other: The reply filed 5/30/2007 is not fully responsive to the prior office action because of the follow omission(s) or matter(s): newly submitted claims 21 and 22 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons. On 10/28/2003, applicant elected apparatus claims 1-11 and withdrew non-elected 12 and 13 in the parent application 10/287350. Those non-elected claims were introduced as the basis of the divisional application which is the present invention previously claims 12 and 14-20. The newly submitted claims are directed to method claims and constitute a different class of invention, and thus a new application. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21 and 22 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP 821.03 See 37 CFR 1.111. .
